

InnoComp 2025 - Innovative Perspectives on Computational Intelligence and Data Science Conference, November 9 - 11, 2026, Lisbon, Portugal

Website: <https://innocomp.eu>

We have the great pleasure to invite you to participate in the **InnoComp 2026 - Innovative Perspectives on Computational Intelligence and Data Science** conference, that will be held on *November 9 - 11, 2026*, in *Lisbon, Portugal*.

InnoComp is an international conference that brings together researchers, practitioners, and thought leaders from academia, industry, and government to explore cutting-edge advancements and emerging challenges in the dynamic fields of computational intelligence and data science.

The conference covers a spectrum of topics, including artificial intelligence, intelligent systems and data science, ensuring a holistic view of the rapidly evolving technological landscape. We strongly encourage PhD Students and Postdocs to participate. Attendees will be able to engage with leading experts through keynote speeches, panel discussions, hands-on workshops, and poster presentations. Several Special Issues in ISI Clarivate indexed journals will be organized for selected papers presented in the conference. Join us as we explore the challenges and opportunities shaping the future of our digital world.

Main Tracks (more details and topics: <https://innocomp.eu>)

- Computational Intelligence
- Data Science
- Intelligent Systems
- Applications

Important Dates

- Paper Submission Deadline: May 31st, 2026
- Acceptance Notification: July 11th, 2026
- Submission of Revised Papers: July 18th, 2026
- Final Version Submission: July 21st, 2026
- Registration Deadline: July 31st, 2026
- Conference Dates: November 9-11, 2026

Publishing Information and Submission Guidelines

InnoComp proceedings are intended to be published by Springer in a special volume of **Lecture Notes in Computer Science**. Papers should be submitted electronically through [EquinOCS](#). Submissions should be prepared following Springer's Instructions for Authors of Proceedings, and use the LaTeX template provided below. The length should not exceed 12 pages. No prior publication or simultaneous submission to other conferences or journals is allowed (except preprint repositories such as arXiv or workshops without formal published proceedings). More details and templates: <https://innocomp.eu/submission-guidelines>.

Organizers

- NOVA University of Lisbon, Portugal
- Babeş-Bolyai University, Cluj-Napoca, Romania
- National University of Science and Technology POLITEHNICA Bucharest, Romania
- Technical University of Cluj-Napoca, Romania
- HoliSun S.A., Romania

We welcome you to create together a successful conference!

Best regards,

Jose BARATA - NOVA University of Lisbon, Portugal

Camelia CHIRĂ - Babeş-Bolyai University of Cluj-Napoca, Romania

Olivia MATEI - HoliSun S.A., Romania

Florin POP - National University of Science and Technology POLITEHNICA Bucharest, Romania

Petrica POP-SITAR - Technical University of Cluj-Napoca, Romania
